Thank you for choosing Adroit Report Suite, your first step to getting more value from your SCADA. . .

Getting Started

Adroit Report Suite consists of specialised SCADA reports that are organised into report packs and hosted on Microsoft SQL Server Reporting Service. The Adroit Deployment Utility facilitates the four step process as illustrated in the workflow diagram below.

How it works

Pre-Requisite

Locating a Microsoft SQL Server running Reporting Services, be that a SQL 2008 R2 or later; Identify the report server URL; Ensuring the correct user access is configured

* SQL 2008 R2 or later

Install

Microsoft SQL Server Express with Advanced Services; Install the Adroit Report Deployment Utility ; Install individual report packs

* Pack components are extracted

Deploy

Using the deployment utility to connect to the report server; upload report pack component; update report data source

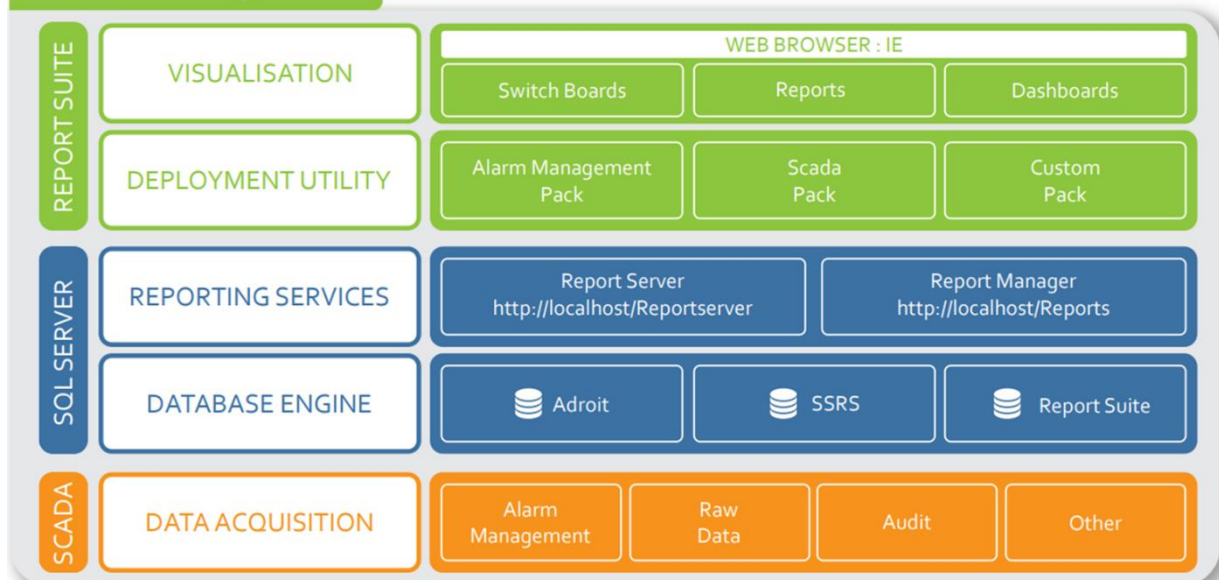

* <http://localhost/reportserver>
http://localhost/reportserver_SQLEXPRESS

View

Report Suite offers report navigation through custom switch boards; Launch shortcut from deployment utility

How it fits together

Installation Process

For comprehensive installation guides, please refer to the SQL 2014 Express Installation Guide and the Report Suite User Manual on the Adroit installation disc. Refer to product release notes for version specific actions or upgrade procedures.
